

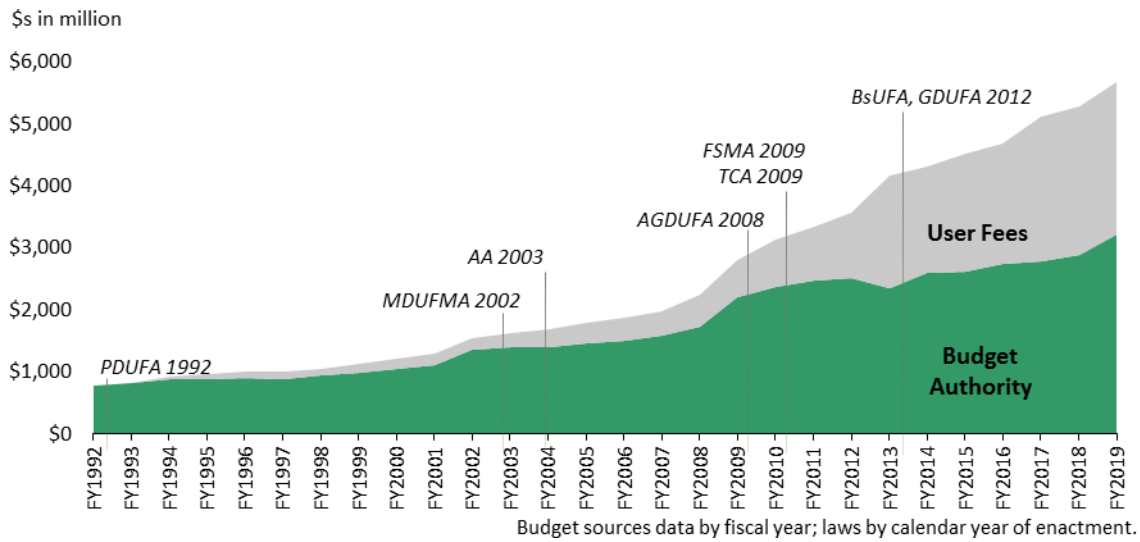

Figure 1. FDA Spending, by Source, FY1992-FY2019
(in millions of dollars)

Source: Figure created by CRS using the FY1992 through FY2021 FDA C.Js.

Notes: These amounts have not been adjusted for inflation. The purpose of this figure is to show how FDA's spending has changed over time to include a greater proportion from user fees compared to budget authority. The amounts used in this figure are from the "Actuals" columns in the FDA C.Js, which, according to the FY2005 C.J, reflect FDA's actual spending rather than what was provided in the enacted appropriation.
